## KEEP IT CLEAN...KEEP IT GREEN

To ensure each job will have the visual appeal, lasting durability & rub resistant finish your customers expect, it is extremely important to properly clean and maintain your Kompac Kwik Finish.

Use Kompac recommended UV Klean & Aque Klean to keep your Kwik Finish operating like the day it was installed. UV

Klean & Aque Klean are a greener alternative to IPA & Ammonia.

## CLEANER

- UV Klean - UV Coating Cleaner  
(A greener alternative to IPA)
- Aque Klean - Aqueous Coating Cleaner  
(A greener alternative to ammonia)

## UV REPLACEMENT BULBS

- 22" Arc, 300 Watts/inch Ozone Free UV Bulb
- 22" Arc, 300 Watts/inch UV Bulb
