**FOR IMMEDIATE RELEASE**

## **Kompac Technologies, LLC Wins ON DEMAND Best of Show Award**

### **Kompac Kwik Finish UV/Aqueous Coating & Curing System**

**Boston, MA, March 4, 2008** – Kompac Technologies, LLC has been recognized at this year's ON DEMAND Conference & Exposition with a Best of Show award in the Bindery, Finishing and Mailing Equipment category for its Kompac Kwik Finish UV/Aqueous Coating & Curing System.

InfoTrends, a leading market research and consulting firm in the digital imaging and document solutions industry, partnered with the ON DEMAND Conference & Exposition to produce the awards program. The ON DEMAND Conference & Exposition is the world's leading digital printing conference and exposition, encompassing all of the technologies that are used to create, manage, personalize, print and deliver content.

#### **LET KOMPAC PUT YOU IN THE COATING BUSINESS!**

The **Kompac Kwik Finish** is an exciting new offline coating and curing system, providing a quick and easy way to apply UV/Aqueous coatings and primers to a wide variety of substrates. From offset to digital output, each job will have the lasting durability, protection and rub resistant finish that your customers expect.

The Kompac Kwik Finish can flood & spot coat as well as spot not coat (allowing areas to be free of coating), encouraging enhanced finishing capability and assisting with variable data printing. **No other UV coater of this size offers spot coating!** As a result of its unique design both sides of the sheet can be coated without concern. In addition, the auto level sensing system automatically replenishes coating when the system is low ensuring contaminated coating will never be used.

Kompac provides everything you need to succeed in coating - The Kompac Kwik Finish, Kompac Complete UV/Aqueous coatings, coating blankets, coating film, packing material and UV/IR bulbs.
