## Onyx 30

UV/AQ Spot & Flood Coating System

Onyx 30, UV/AQ coating & priming system

Phoenix 30 in-line system on Fujifilm J Press 750S Sheetfed Inkjet Press

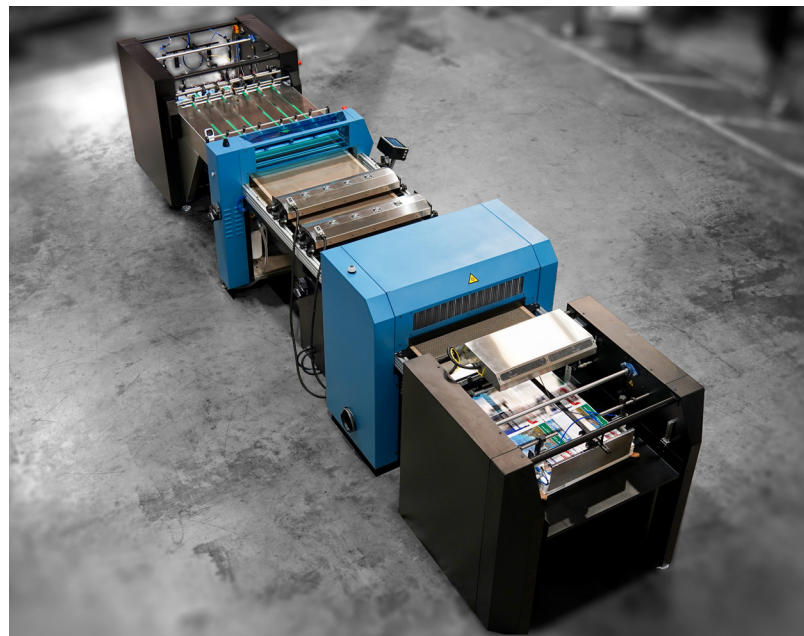

## Phoenix 30 In-line

The Phoenix 30 coating system offers unparalleled flexibility as it can be configured either in-line or nearline, and in simplex or duplex modes. With its modular design, customers have the freedom to tailor the equipment to meet their exact business needs, making it an ideal solution for businesses seeking to optimize their operations. The Phoenix 30 is designed with precision and efficiency in mind, ensuring consistent and high-quality results every time. The equipment is user-friendly and easy to maintain, minimizing downtime and maximizing productivity.

### Phoenix 30 Specifications

Max. Sheet Size:.....30"x30" (76x76cm)  
 Stock Weights:.....7pt. to 30 pt. (150-600gsm)  
 Speeds:.....Up to 6,000 sph  
 Pallet Heights:.....Up to 34" (86cm)  
 Coatings Types:.....UV, AQ (Many Varieties)  
 Drying & Curing:..UV, IR, Corona, NIR, Air Knives

## Phoenix 30 Nearline

Phoenix 30 UV/AQ nearline coating system

### Available Options

Patented Kompac Coating System  
 Patented Hybrid Chambered Anilox System  
 Patent Pending Duplexing System  
 Patented Kompac Vac Cleaning System  
 Patented Infra-red Drying System  
 Hybrid IR Drying System  
 Corona Treating (Available on Phoenix Only)  
 IOTech4 (Preset Jobs & Track, Remote Troubleshoot)

Onyx 30, shown with feeder and stacker

## Onyx 30

The Onyx 30 is an exciting nearline spot/flood coating and die cutting system, that provides a quick and easy way to apply UV/ aqueous coatings and primers, and specialty coatings to a wide variety of substrates. From ultra thin paper to plastics, card stock and lenticular; whether digital output, or offset, each job will have the visual appeal, lasting durability, protection and rub resistant finish that your customers expect. The Onyx 30 is the most flexible, cost-effective coating system on the market today!

### Onyx 30 Specifications

Max. Sheet Size:.....23"x32" (58x80cm)  
 Stock Weights:.....3pt. to 30 pt. (60-600gsm)  
 Speeds:.....Up to 6,000 sph  
 Pallet Heights:.....Up to 34" (86cm)  
 Coatings Types:.....UV, AQ (Many Varieties)  
 Drying & Curing:.....UV, IR, NIR, Air Knives

## Next Generation Duplex Coating System

### The Future of Coating

The Phoenix Duplex is a state-of-the-art system that is capable of coating and priming a wide range of substrates. With its advanced sheet turning technology, the system can handle a wide range of substrates, from lightweight to heavy-weight, and provide consistent coating quality across the board. The system's innovative design allows for seamless integration into existing production lines, making it a cost-effective solution for many printing and packaging operations. Additionally, its compact size and minimal maintenance requirements make it an ideal choice for small to large-sized businesses looking to increase their production capabilities. The Phoenix Duplex's advanced system enables precise control over the coating and priming process, ensuring consistent and uniform coating thickness and coverage. It also features automatic cleaning and maintenance functions, reducing downtime and ensuring maximum uptime.

# Coatings & Cleaners

Elevate the aesthetics and longevity of your printed projects with Kompac Coatings & Primers. We offer a comprehensive range of finishing options, including UV, aqueous, and specialty coatings, along with a selection of environmentally friendly cleaners. With our solutions, your final product is guaranteed to stand out visually, creating a lasting impression. Our products are available in versatile sizes, from 1-gallon and 5-gallon pails to 55-gallon drums, and we deliver worldwide, ensuring that you receive your coatings promptly.

Kompac goes beyond conventional coatings, offering customized coating solutions to cater to unique requirements. Our innovative range includes specialized aqueous and UV primers designed for challenging substrates, ensuring impeccable results. These coatings serve a variety of purposes and can be used for applications such as:

**Softtouch • Writeable/Glueable • Dry Erase • Reticulating • Blister packaging  
Non-skid/Sand • Food-grade application • Playing Cards • White Opaque • ETC**

## IOTech4

### Kompac's most intuitive & easy-to-use platform

Experience the epitome of connectivity and control with our cutting-edge hardware and software platform - IOTech4. With real-time monitoring and reporting, gain access to vital information such as job run-time, impression count, and coating usage. Our innovative system also allows for efficient job tracking via part numbers, ensuring minimal operator errors. Receive instant alerts for necessary maintenance and keep track of employee performance reports, all at your fingertips. Boost your productivity and streamline your operations with IOTech4!

## Authentic

### Simplify your shopping experience

Our user-friendly website provides a hassle-free shopping experience, allowing you to easily navigate through our products and make informed purchasing decisions. With our fast and reliable shipping services, you can rest assured that your order will be delivered to your doorstep in a timely manner. We also pride ourselves on our exceptional customer service. Our team of experts is available to assist you with any questions or concerns you may have about your coating system, providing personalized advice and solutions to meet your unique needs.

## Quality

### Great systems.... Great support....

Experience the excellence of American craftsmanship with Kompac's range of rugged and durable products, designed to provide long-lasting productivity. Our commitment to quality is backed by our reliable warranty, and we're proud to have satisfied customers worldwide for over four decades. Explore our extensive range of coatings, cleaners, and spare parts, accompanied by excellent technical support and state-of-the-art remote service via IOTech4.
