

Kompac®

EZ Koat 15 Plus

- Cost effective, small footprint, entry-level flood coating and priming system
- Easily apply UV, aqueous, specialty coatings and primers
- Compact and can be used offline
- Handles substrates up to 14.5" (368mm) wide by unlimited length (hand-fed)
- Provides coating control and speed adjustment on-the-fly with the color touch screen
- Uses solid state digital UV lamp controller that permits infinite curing and temperature control, saving power and money
- Eliminates the need for re-circulation of the coating – no waste!
- 2-minute coating change (no tanks to clean!)
- Made in the USA

*The Kompac EZ Koat 15 Plus is
your perfect entry-level flood coater
for print shops and small businesses*

Enhance the look and value of product packaging, labels, catalog covers, product brochures, postcards, business cards, and more using the EZ Koat 15 Plus. This offline flood coating system provides users the ability to apply UV, aqueous, primer & specialty coatings to a wide variety of substrates - including those that are digitally printed.

With a small footprint, this high-powered coating system provides abrasion resistance and added durability for products with repeat handling and shipping, protection from the outdoor elements, and it shields against chemicals, cleaners, fingerprints, food, and water.

Kompac Coatings, Primers, & Cleaners

A proper coating can enhance the appearance and durability, increasing the printed product's value. Kompac offers a wide range of finishing options, with a complete line of UV, aqueous, specialty coatings and primers available for all products. Kompac will help you create a visually outstanding finished product!

To keep your Kompac coating equipment operating like the day it was installed, we recommend UV Klean and Aqua Klean as part of your daily UV and aqueous coating clean-up procedure.

Kompac works great with . . . *

. . . and many more!

* Logos property of their respective owners.
